monitoring

-no monitoring needed

lights

- don't need much lights (can live without them and just use the visuals)
- please no bright lights from the front, have an issue with my eyes. Thank you!
- during the concert, the venue should be as dark as possible

visuals / projections

- beamer with hdmi-connection (720p if possible)
- hdmi-cable long enough to connect to my laptop on stage
- screen for projections at the back center of the stage

other

- need one sturdy table for the rack and laptop
